Request for Quotation form

Please provide as many details as possible to ensure an accurate quotation.

- Type of equipment desired
Pilot: 5" (12.5cm), 10"(25cm), 15(38cm), 20(50cm), or custom _____
Production 20(.5M), 40(1M), 60(1.5M), or custom _____
- Type of polymer used; _____ needed to determine capillary size
- Fiber Size required; _____ needed to determine capillary size
- Caliper required _____
- Basis weight range _____
- Throughput #(kg) per hour; _____ will determine amount and spacing of capillaries
- Small pilot lines are not quoted with a melt pump unless required _____
- Extruder; Special requests _____
- Screen Changer; _____
- Additive mixers; _____
- Control type; discrete or Siemens PLC based _____
- Hopper loading, conveying; _____
- Fiber quench system; _____
- Surfactant applicator; _____
- Position of die; horizontal or vertical spinning _____
- Collector type; flat belt or drum _____
- Winder; quoted or customer supplied _____
- Availability of process air; or compressor required _____
- Industrial current available at site; 230/460 - 60hz or other _____
- Location of installation US, Europe, Asia, etc ; _____
- Required certifications UL, CE, or others; _____
- Spare parts and consumables; _____
- Burn out oven; _____
- Estimated timing for purchase _____
